## Working Retriever Club (KDP)

### GOLDEN DUCK TROPHY RULES

#### I. GENERAL

All retrievers that successfully complete at least one Golden Duck working test in a particular calendar year, are eligible to compete for the Golden Duck Trophy. The Golden Duck Trophy shall be awarded under the condition that at least 2 working tests were organised during that season.

#### II. SCORING AND RANKING SYSTEM

1. All the results of the Golden Duck working tests in a particular calendar year shall be taken into account in the overall ranking, whereby if an individual dog has competed in more than one competition class at any of the working tests, only the best result of each individual working test shall be taken into account.
2. If an individual dog is handled by different handlers during the season, the sum of the results of all handlers is taken into account for that dog, taking into account the conditions of point 1 of this section.
3. The chart below shows how many points a result is worth in each class. The winner of each class receives an extra point.

result	Newcomers class	Beginners and Veterans class	Novice class	Open class
excellent	5	6	7	8
very good	4	5	6	7
good	3	4	5	6
passed	2	3	4	5
winner	+1	+1	+1	+1

4. Tekmovalce se razvrsti glede na skupni seštevek točk po zgornji tabeli. V primeru enakega števila točk se pse nadalje razvrsti glede na skupni seštevek doseženih točk posameznih nalog na vseh delovnih testih za Zlato raco v sezoni, vključno s tistimi, ki jih pes ni opravil uspešno. Izjema velja glede odločitve o skupnem zmagovalcu Zlate race – za prvo mesto se v primeru enakega skupnega seštevka točk po zgornji tabeli upošteva, kdo ima boljši delež med številom, kolikokrat je tekmovalec v sezoni pri posameznih nalogah dosegel vse možne točke, in številom tekem, na katerih je sodeloval v sezoni. V primeru, da je tudi ta delež enak pri obeh (ali več) tekmovalcih, zmagata tekmovalca, ki ima boljše povprečje rezultatov glede na delež osvojenih točk v razmerju do vseh možnih.
5. Poleg skupne razvrstitve za Zlato raco se tekmovalce razvrsti tudi po razredih ter po pasmah.
6. Pri razvrstitvi tekmovalcev po posameznih tekmovalnih razredih se upošteva enak način razvrščanja kot zgoraj pod točkami 1 do 4 tega poglavja, pri čemer se upoštevajo le rezultati psa, doseženi v posameznem tekmovalnem razredu.
7. Pri razvrstitvi tekmovalcev po pasmah se upošteva enak način razvrščanja kot zgoraj pod točkami 1 do 4 tega poglavja.

### III. PRIZNANJA IN TROFEJE

1. Skupni zmagovalec Zlate race prejme trofejo, priznanji pa prejmeta tudi drugo- in tretje- uvrščeni v skupnem seštevku.
2. Priznanja prejmejo tudi prvi trije pri razvrstitvah po tekmovalnih razredih in pasmah. Na željo pokroviteljev ali zasebnih donatorjev se lahko v dogovoru s Klubom za delo prinašalcev tudi za navedene posebne razvrstitve vzpostavijo trofeje (npr. pokal za najboljšega začetnika...) ali druge nagrade.

4. Competitors shall be ranked according to their total points pursuant to the above chart. In the event of a tie, the dogs shall be further ranked according to the total points achieved in individual tasks in all Golden Duck working tests during the season, including those which the dog has failed. An exception applies in relation to the decision on the overall winner of the Golden Duck Trophy – in case of a tie for the overall winner pursuant to the above chart, a better proportion between the number of times a competitor has scored all possible points in an individual task during the season and the number of competitions, which the competitor has participated in during the season, shall be taken into account. In the event that this proportion is also tied for both (or more) competitors, the competitor with a better average of the results in relation to the proportion between scored and all possible points wins.
5. In addition to the overall classification for the Golden Duck Trophy, competitors shall also be classified by class and by breed.
6. The same method of ranking as under points 1 to 4 of this section shall be used for ranking competitors in each competition class, however, only results and points achieved in an individual competition class shall be taken into account.
7. The same method of ranking as under points 1 to 4 of this section shall be used for ranking competitors by breed.

### III. RECOGNITIONS AND TROPHIES

1. The overall winner of the Golden Duck Trophy receives a trophy, while the second- and the third-placed overall winners also receive recognition.
2. Also the top three in the rankings by competition class and breed shall receive recognitions. At the request of sponsors or private donors, additional trophies (e.g. trophy for the best newcomer, etc.) or other awards may also be established for such special classifications in agreement with the Working Retriever Club.

3. Do zdaj so bile skladno s prejšnjo točko vzpostavljene naslednje trofeje:

- Prehodna trofeja »Teddy Trophy« (kipec gladkodlakega prinašalca v kasu z medvedkom na mahagonijevem podstavku) se podeljuje lastnikom zmagovalnih psov v razvrstitvi za najboljšega gladkodlakega prinašalca sezone. Trofeja je in ostane last Kluba za delo prinašalcev. Posamezen prejemnik ima lahko po podelitvi trofejo v začasni posesti omejen čas – najpozneje 30 dni pred zadnjim razpisanim delovnim testom naslednje sezone jo mora vrniti Klubu za delo prinašalcev, ki bo trofejo opremil z imenom preteklega zmagovalca in jo nato po zadnjem delovnem testu podelil naslednjemu zmagovalcu v razvrstitvi za najboljšega gladkodlakega prinašalca sezone. Potem ko se trofeja povsem zapolni z imeni zmagovalcev, odločijo o njeni nadaljnji usodi tisti člani Kluba za delo prinašalcev, ki so v času odločanja lastniki gladkodlakega prinašalca (ali več njih), z navadno večino glasov. Teddy Trophy se podeljuje samo slovenskemu lastniku.
